Weicon AT-44 All-Round Lubricant with PTFE

AT-44 is an incredibly versatile lubricant used in all industrial and workshop areas. Due to its special formulation with a high percentage of PTFE, AT-44 offers a very low coefficient of friction combined with excellent corrosion protection, cleaning, water resistance, lubrication and conservation properties, all in one product.

Weicon AT-44 All-Round Lubricant is yellowish in colour and has a vanilla-like odour. This high quality product is used in applications with temperatures between -50°C and $+210^{\circ}\text{C}$.

Weicon AT-44 is silicone-free and resists all atmospheric influences. For more information on this incredibly versatile product, or any other grade in the Weicon lubricant range please don't hesitate to contact your local AG branch.

Potential Applications

- Loosening seized screw connections, bolts, fittings and valves
- Dispelling moisture from electrical lines
- Preventing leakage current and easing the starting or wet motors
- Elimination of squeaking and creaking on hinges, guides, bearings and all kinds of couplings and joints
- Cleaning dirty surfaces whilst leaving an extremely thin film that does not smear, stick or attract dust
- Protecting and caring for all tools, machines, electrical and mechanical precision instruments (e.g. locks, measurement tools, weapons)

Availability

Both 150ml and 400ml aerosols are available in conjunction with a number of bulk liquid pack sizes.
