

RustoNil

rust removing compound for steel

RustoNil is an inhibited acidic composition formulated for efficient removal of rust from steel parts without excessive attack on it. It contains special additives which suppresses fumes for better working environment, prevents itching of surface and thereby metal loss. This results in better rust removal and longer bath life.

Regular additions should be done in the working tank till Fe content reaches maximum limit of 50 gm/lit. Afterwards, the tank solution should be discarded till the solution is effective.

Concentration : 25% - 50% (v/v)

v / v = volume by volume

25% RustoNil v / v = 25 Lit. RustoNil + 75 Lit. water

Temperature : Room Temp.

Time : 10 to 30 min.

Material of Tank : Plastic or FRP lined MS for dipping application

Shelf life : minimum two years

Packing : 1 kg, 5 kg & 50 kg in plastic carboys

Precautions : Nothing in particular, though excessive direct contact with skin should be avoided

Office : Plot No 814, Pereira Industrial Premises, Opp. Samhita Complex, Saki Naka, Andheri (E),
MUMBAI 400 072, INDIA

Tel. : +91 – 22 – 28961436 , 28482557
