Sensor Cleaner

**Plastic Safe Fast Drying Cleaner For Fragile Sensor Hotwires
Helps Improve Engine Efficiency, Economy & Power**

ASV[®] Sensor Cleaner is a blend of fast acting cleaning agents formulated to safely clean and remove contaminants such as dirt, dust, soot, carbon from delicate mass airflow sensors in engines of fuel injected vehicles without affecting sensitive plastics and metal surfaces.

ASV[®] Sensor Cleaner evaporates fast without leaving any residues and quickly cleans sensors and helps improve performance, restore horsepower, loss of performance and helps maintain proper air / fuel ratio.

Regular use helps keep the engine to run at peak efficiency.

Appearance	Color	Type	Flash Point, °C	Specific Gravity, Active Contents	Evaporation Rate	Residue On Evaporation	Propellant
Clear Liquid	Colorless	Non chlorinated	<-17C	0.68 g/cc	Very Fast	None	Carbon Dioxide

Available Packaging
- 500 ml aerosol spray

Shelf Life
24 months from date of
manufacture in sealed condition

Directions for use

Never use on energized equipment. Always turn off the vehicle. Disconnect the mass airflow sensor wire harness and remove the housing. Spray 10-15 shots of ASV® Sensor Cleaner on the hotwires or flat film elements from all accessible sides and clean all wires and connectors. Allow cleaning solvents to dry thoroughly before re-assembling the sensor. Note: If sprayed on painted surface, wipe off or wash off immediately as paint may be affected.

Caution: Contents under pressure. Do not puncture, pierce or incinerate the container, even after use. Protect from sunlight and store away from heat and sources of ignition. Do not use on energized equipment or on live circuits. Do not expose to temperatures exceeding 50°C (120°F). Use only in well ventilated areas. As this can conduct electricity, prevent the risk of electrical shock by keeping away from all live electrical connections and sources of electricity. Do not breathe vapors or spray mist. Harmful by inhalation and avoid contact with skin and eyes. In case of eye contact, flush eyes with water and contact a physician. If swallowed, may be harmful or fatal. DO NOT INDUCE VOMITING. CALL A PHYSICIAN IMMEDIATELY. KEEP OUT OF REACH OF CHILDREN. Dispose as industrial waste only in accordance with governing regulations. For proper disposal empty aerosol can completely.

General

Use in well ventilated areas. Avoid continuous breathing of vapor and spray mist. In closed areas or areas with poor ventilation, use respiratory protection. For complete details on safety, short and long term exposure, refer to this product's safety data sheet (SDS).

Handling

Read instructions on the container label of the product before use. The product safety data sheet (SDS) contains the relevant information regarding personal protective equipment, safety, short and long term exposure, physical and health hazards and is available from ASV or your local ASV distributor.

Disposal

All used and unused product should be disposed of in accordance with state regulations.

Limited Warranty

The information and data contained in this sheet is accurate to the best of our knowledge or is obtained from sources, tests or experiences believed by us to be reliable and accurate. User is responsible for determining whether recommended ASV® product is fit for a particular purpose. All products should be tested for suitability on a particular application prior to actual use. We make no representations of any kind. Data offered without warranty.

ASV® is a leading pioneer in the production of specialized lubricants and technical chemicals in India for the MRO industry for nearly 5 decades.

Founded in 1969 with the introduction of Molysulf® line of solid film lubricants for tribological applications, today ASV® manufactures a broad range of products for diversified industrial needs as lubrication, cleaning and protection by way of performance oriented cost benefitting solutions.

Contact us today to discover how you can increase productivity as well as increase equipment performance while reducing maintenance and operational costs.
